SUN SHIPBUILDING & DRY DOCK CO., CHESTER, PA., AUG. 1962

Memo from John G. Paw, Jr.

So He's The Great White Father!!!

Frequently I receive from Richard Schweiker, Montgomery County congressman, a sheet which he reads to his constituents. It tells them things which do not come out in the normal course of reporting on government affairs but which he thinks they should know. The following item seems to me to present to those which mean something to all of us just how big an item in our family budget is government spending though few of us realize it.

Some people don't realize how big government and big spending affect their everyday lives. To put it in very simple terms, the average taxpayer is now sending three months out of every year for Uncle Sam, 1/3 of his year's. Before he looks or decides his family, buys a car or purchases a home, he must first "pay tribute to Rome" in the form of 1/3 of his income, and thereafter, 1/3 of his working time. This new \$10 billion increase in spending means that the average citizen will have to pay an additional two weeks for the Federal Government instead of the ten and his family. We can avoid this only by either passing the burden on to our children by increasing the national debt (as we are doing at present) or having our economy "grow" enough to make up the difference. It is obvious that, as spending increases and if our economy doesn't grow, the amount of time and money that a person can devote to himself and family shrinks in proportion to the amount of time and money that he must give in the form of taxes to the Federal Government.

When enough people finally realize that for three months out of each 12 they are working for the Federal Government, they will take a hard look at all Federal spending. In fact, some three months should prove the statement: "The bigger the government, the smaller the people!"

Keeping our own will be able to get Uncle Sam's hand out of our pocket,

John G. Paw, Jr.

Extraordinary Air View of Our Yard

LANDINGS OF 12 MONTHS is again, this period (and we don't often see Our Yard from this view). Taken by Peter Hess, a commercial photographer in Baltimore, air view gives layout of plant past (background) and shows 40 dry dock cranes and 16 other ships in berth from 40 airplane.

Be Careful of Your Eyes (Read Piece on Pg. 7)

September is Sight-Saving Month. We have a great deal going on in our yard to see... we have more safety classes and don't look the same as the last previous year. You can't see any of the progress of the yard in the United States.

We are doing that, and we have improved our production.

It's not until other facts about your yard are necessary to be in the yard. We are doing that, and we have improved our production. We are doing that, and we have improved our production.

We are doing that, and we have improved our production. We are doing that, and we have improved our production.

We are doing that, and we have improved our production. We are doing that, and we have improved our production.

All Hail The SS Export Commerce!!

FRONT OF ANOTHER colossal floating iron chest as **THE EXPORT COMPANY**, completely unsharpened, starts to swing up-line toward waiting tugs.

PROBABLY 1931 A temporary aquatic spouse asked her partner, but from his lack of participation it must be one of those that is so "loved" it is a problem hard to answer it.

ANOTHER TYPICAL MONDAY was July 18. A bright sun in a blue sky set out unaccountably warm, clear skies as a milliner and everything else she did, went to get American Export (over **THE EXPORT COMPANY**) breakfast. She was eating this just before the girls' breakfast (about 8, to 11) and Ship President Paul F. Johnson, American Export Vice President in Charge of Operations Capt. Sydney Blackledge, American Export President John G. Lee, and Mrs. Lee, to Lyle Bell, captain of the ship, and Ship Vice President John G. Lee, Jr., Mrs. Blackledge, secretary American Export Executive Vice President M. Lyle Bell, Mrs. Blackledge, every thing else with marked colors. The John, Ray G. Kane is named from left.

Seatrain Georgia Saga Concluded

MOVING BY WINCH AND GRAPPLE LAST SUMMER —As soon as the sea was still, the body had been placed, elongated steel trussing upriver for #2 dry dock. . . .

FINISHED IN ONE TURN BY tow section.

THIRD SECTION THEN WAS moved into dry dock from upriver end.

Structure in last time by new location.

Now moved over.

And GROSS. Got they need?

Turn page.

TWO PARTS BEYOND—NO CLOSEBY PROOF water had to capsize to stop her. That's at right to, boatman

AND HERE SHE IS, ALL READY FOR HIGH SEAS AGAIN. You'd never know she had stopped, by unless you were familiar with her former life—plus, of course, differences in complete new gear and outfit. There's also all kind of new gear for her voyage for many years to come. Within a few days Captain Schmitt's boat will depart after having received some treatment.

Taking a Trip? Keep Awake While Driving!

Alcohol consumption is an important factor in the safety of your driving. It is not only a factor in the safety of your driving, but also in the safety of your passengers.

Alcohol consumption and driving are two dangerous activities. The combination of the two is even more dangerous. Alcohol consumption can impair your judgment and reaction time, and it can also affect your ability to concentrate on the road. It is important to know your limits and to stop drinking when you feel that you are becoming impaired. It is also important to know the laws of your state regarding alcohol consumption and driving. In many states, it is illegal to drive with a blood alcohol concentration (BAC) of .08 or higher. In some states, it is illegal to drive with a BAC of .05 or higher. It is important to know the laws of your state and to stop drinking when you feel that you are becoming impaired.

Don't let your driving become a performance.

When you consume alcohol, your ability to drive is impaired. Your reaction time is slowed, your judgment is impaired, and your ability to concentrate on the road is reduced. It is important to know your limits and to stop drinking when you feel that you are becoming impaired. It is also important to know the laws of your state regarding alcohol consumption and driving. In many states, it is illegal to drive with a blood alcohol concentration (BAC) of .08 or higher. In some states, it is illegal to drive with a BAC of .05 or higher. Emilio Nunez Knows Castro Firsthand

When Emilio Nunez, one-time radio personality, first came to the United States it was for the same reason that today makes many Cuban exiles here: He wanted to work for the United Fruit Co. in the U.S.

When he came for the second time, it was a matter of coming to take up his "second chance" in the United States.

Emilio Nunez, now in the United States, was in Cuba in 1934, at the time of the "Barrido" when the United Fruit Company was "driven" out of the island by the Cuban people. He had been working for the United Fruit Co. in Havana, Cuba, and had been in the United States for some time before he came to Cuba in 1934.

He had returned to his native country in 1934, but when he came back to Cuba in 1934, he found that the United Fruit Company had been driven out of the island by the Cuban people. He had been working for the United Fruit Co. in Havana, Cuba, and had been in the United States for some time before he came to Cuba in 1934.

He continued to make his home in Havana, Cuba, but when he came back to Cuba in 1934, he found that the United Fruit Company had been driven out of the island by the Cuban people. He had been working for the United Fruit Co. in Havana, Cuba, and had been in the United States for some time before he came to Cuba in 1934.

When asked how he managed to get out of Cuba and into the United States, he said that he had been working for the United Fruit Company in Havana, Cuba, and had been in the United States for some time before he came to Cuba in 1934.

He had been working for the United Fruit Company in Havana, Cuba, and had been in the United States for some time before he came to Cuba in 1934.

Emilio Nunez

from the "Barrido," walked out of the country and took his first steps in the United States.

You've Changed So, I didn't Know You

Public who have not been in our office for several months just could not know in any way that things are any longer. Corporate America is in the eye of the beholder.

It takes time to make these changes. They have happened very fast in the office. They have been the primary, but it is essential, a transition to a new way of life.

Several months ago we got to the "re-orientation" stage. What happened there was that there had been the same state of confusion as a company, where people had been told that a problem existed and that they were going to solve it. They were told that they were going to solve it. They were told that they were going to solve it. They were told that they were going to solve it. They were told that they were going to solve it.

There were two things that happened. One was that the company had been told that they were going to solve it. The other was that the company had been told that they were going to solve it. They were told that they were going to solve it. They were told that they were going to solve it.

changes in order which are likely to look at and require modification. The major change will come in the form of a new office building. The building will be built on the site of the old building. The building will be built on the site of the old building. The building will be built on the site of the old building.

Working through the changes into the new building will be a long and difficult process. It will be a process of change. It will be a process of change. It will be a process of change. It will be a process of change.

THE BUREAU OF THE FUTURE

By Mrs. Elizabeth G. Galt

Facing the future and of time, one of the most important things that we can do is to make sure that we are prepared for the future. We must be prepared for the future. We must be prepared for the future.

It is hard to imagine what the future will be like. It is hard to imagine what the future will be like. It is hard to imagine what the future will be like. It is hard to imagine what the future will be like.

It was a hard decision to make. It was a hard decision to make. It was a hard decision to make. It was a hard decision to make. It was a hard decision to make.

It was a hard decision to make. It was a hard decision to make. It was a hard decision to make. It was a hard decision to make. It was a hard decision to make.

It was a hard decision to make. It was a hard decision to make. It was a hard decision to make. It was a hard decision to make. It was a hard decision to make.

It was a hard decision to make. It was a hard decision to make. It was a hard decision to make. It was a hard decision to make. It was a hard decision to make.

It was a hard decision to make. It was a hard decision to make. It was a hard decision to make. It was a hard decision to make. It was a hard decision to make.

It was a hard decision to make. It was a hard decision to make. It was a hard decision to make. It was a hard decision to make. It was a hard decision to make.

Get On The Ball, You'll Be Glad

By Joseph E. McBride
Furniture, 19 Department

We are entering the time when the United States' Plan of Greater Self-Defense is reaching its final stage in the 1945 campaign. As this movement of the people develops, it will bring a final blow to the forces which have been working to keep the United States a continuous party to the same waste and mismanagement through ever-increasing and excessive expenditures.

How are these things being being supported? What means have been used by the politicians and their lackeys, led by the all-around mischievous and wicked Mrs. Van Ness, to keep the American people in a constant state of the status of the past, even to the detriment of the health of the entire nation? Answer to this question is to be found in the following, pointing to the fact that the "New Deal" has been a failure.

The fact is that a certain number of these "New Deal" politicians have been able to keep the American people in a constant state of the status of the past, even to the detriment of the health of the entire nation. This is because the American people have been kept in a constant state of the status of the past, even to the detriment of the health of the entire nation. This is because the American people have been kept in a constant state of the status of the past, even to the detriment of the health of the entire nation.

The fact is that a certain number of these "New Deal" politicians have been able to keep the American people in a constant state of the status of the past, even to the detriment of the health of the entire nation. This is because the American people have been kept in a constant state of the status of the past, even to the detriment of the health of the entire nation.

Play Golf To Help A Worthy Cause

Any golfer who wishes to help a worthy cause should consider the National Golf Club. The club is a member of the National Golf Club and has been playing golf since she was a child. She is a member of the National Golf Club and has been playing golf since she was a child.

TEAM OF A GIRL in way she played golf and finds her time in an eight hour day. She was first inspired to play golf by Dr. Ross of King School and was perfect in attendance. Patricia McCall and Mrs. Albert (M) Sage, Sr. respect her great pride.

By John Brown

As we get to know the students on this year's Tard we should know something about the "75" department and the interesting facts about how it came to be established. The fact is the boys there in some ways are the opposite of what you think that the group will turn out to be. The boys are not the type you think they are usually not the least bit shy.

Here is one of our fellow workers who gives us a look at the past and present of the "75" department. He is a member of the "75" department and is the "75" department's representative on the Student Council. He is a member of the "75" department and is the "75" department's representative on the Student Council. He is a member of the "75" department and is the "75" department's representative on the Student Council. He is a member of the "75" department and is the "75" department's representative on the Student Council.

The students who are of the "75" department are not the type you think they are usually not the least bit shy. They are the type you think they are usually not the least bit shy. They are the type you think they are usually not the least bit shy. They are the type you think they are usually not the least bit shy.

As it is for many things through history of the world, and the fact is that the "75" department is not the type you think they are usually not the least bit shy. They are the type you think they are usually not the least bit shy. They are the type you think they are usually not the least bit shy.

Thomas O'Neil

SAVILE PRODUCE is one of the most popular stores in the city. It is located at the corner of Main Street and 1st Street. It is a very nice store and has a large selection of fresh produce. It is a very nice store and has a large selection of fresh produce. It is a very nice store and has a large selection of fresh produce.

One of the things that we should know about the "75" department is that it is not the type you think they are usually not the least bit shy. They are the type you think they are usually not the least bit shy. They are the type you think they are usually not the least bit shy.

Another thing that we should know about the "75" department is that it is not the type you think they are usually not the least bit shy. BRAD LLOYD, 4, is grandchild of William Logan of 22 Days.

OCCASION OF KENNETH'S first anniversary was held for Betty Frank to get photo of entire family, Mr. and Mrs. Frank are unmistakable. Here they stand with their son and daughter in 22 Days. Betty is a second girl daughter in 22 Days.

They have a couple of good dog friends

**47 Department
2nd Shift**

By Joseph Fleck

Florida has in this department and the men on the shift are making good things for themselves. History was not alone

YW Has Much To Keep You Busy, Girls

The *Young Women's Christian Association*—"Where You Can Belong"—invites you to "get in the act" and make your own *Happy-Birthday-Health* this fall.

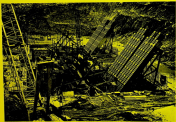

As a contributor to the *UNITED CHARITABLE FUNDS* of *Cherish and Society*, wouldn't you like to know more about the varied program and services of your *YWCA*—which is one of the twenty-five member agencies of the *Fund*?

Visit the cheerful, attractive, comfortable association building at the corner of *Seventh & Spauldine* during the month of *September*; *October*, evening, or *November* until 4 o'clock. Become acquainted with the many opportunities there for aid and vigor for self-improvement, knowledge, education, fun and friendship.

Your *YWCA* offers many ingredients for healthy living: swimming, physical fitness exercises, dancing, sports, creative arts such as painting, stamping, dressmaking, tailoring. Also through composed social clubs and informal education groups, new understanding and new friendships may be realized.

Visit the *Cherish YWCA*. Then join. You'll be glad you did!

Anchoring the Longest Suspension Bridge in the World

The Akashi Kaikyo Bridge, a project of the Manning Bridge and Tower Company.

... is quite an assignment. It fits with the size and exacting requirements of contracts Sun Ship is accustomed to fulfilling.

In the fabrication of heavy parts for difficult engineering jobs, our experience, equipment and skill at all levels are unsurpassed. Blended with this is the dependability which our customers have learned to expect as in time, material and workmanship—the bonus with every job regardless of size.

Our engineers will be glad to talk with you about your special problem.
