#### 5. Artifacts:<sup>[1]</sup>

#### 5.1: Ship's Sponsor's Launching Plaque

It is a custom to give the sponsor of the ship being launched a ceremonial plaque commemorating the launching of the vessel. The sponsor would typically be the wife or daughter of an executive of the company that had purchased the ship. In the case of WWII however, there were so many ships being launched and purchased by the Maritime Commission, that sponsors were chosen by lottery among the shipyard workers. A bottle of champagne would be broken across the bow of the vessel, which would then be named by the sponsor. The sponsor would be protected from shattering glass by a woven mesh cover.

#### 5.2: Launching Pins

Pin typical of those given to attendees of a Yard launching for permission to enter the Yard for the launch.

Text from newspaper from launching of the **Sol Navis** H-010 (1919.02.04): "Long before the hour set for the launching, crowds of people filed into the main office, receiving badges that entitled them to pass through the yard and witness the all-important event. The visitors included the wives and relatives

of many of the workmen, who were perched on the roofs of nearby buildings, on the big ponderous cranes and other vantage points

Here is a sample of an early launch pin for the 'Tidewater Associated' H-126, launched on 1930.09.06.

SSHS: 500\_126\_010:

This 'Honey Hill' launch pin was acquired with Sponsor's Launching plaque. The launching pins were modified during WWII and titled 'Victory Launching Pin'.
